5. Oberrat Sonnet (fnu) of Fachabteilung D of the HVA has unwillingly consented to the use of the ZIS 150 for the transport of HVA pontoons. The pontoons measure 7 m. 10-20 cm. in length. He is said to have preferred cross-country vehicles. SAG Bleichert in Leipzig is converting six ZIS 150s into mobile cranes and these were to have been ready on 20 July 1951 when they were delivered to the VPD at Kuckensee.
